

# Input

- Struktur- und Kapazitätsdaten
- Allgemeiner Stand der Impfkampagne
- Aktuelle Situation und Lagerbestände
- Projektion der weiteren Lieferungen

The screenshot shows a VS Code editor window with a file named `start.component.ts`. The code is written in TypeScript and implements a class component. It includes a `loaddata()` method that fetches data from a GitHub repository and a `getexternaldata()` method that fetches additional data. The code is as follows:

```
105
106
107   if (this.token || !this.notstarted) {
108     this.loaddata();
109     // Import some public data
110   }
111 }
112
113
114 loaddata(){
115   this.http.get('https://raw.githubusercontent.com/zidatalab/covid19dashboard/master
116   .subscribe(data => {
117     this.kapazitaetsstand = data["stand"];
118     this.ewz_bl = data["data"];
119     this.bl_liste = this.getValues(this.ewz_bl, "Bundesland");
120     this.impfkapazitaet_bund = this.getValues(this.filterArray(this.ewz_bl, "Bun
121     this.getexternaldata();
122   });
123 }
124
125 getexternaldata() {
126   this.http.get('https://raw.githubusercontent.com/zidatalab/covid19dashboard/master
127   .subscribe(data => {
128     this.stand_impfungen_data_aktuell = data;
129     this.impfstand_rki = new Date(data[0]['Stand_letzteImpfung']);
130     this.http.get('https://raw.githubusercontent.com/zidatalab/covid19dashboard/ma
131     .subscribe(data => {
132       this.stand_impfungen_hersteller = data;
133       this.stand_bmg_lieferungen = new Date(data[0]['Stand_BMG']);
134       console.log('STANDBMG', this.stand_bmg_lieferungen);
135       this.http.get('https://raw.githubusercontent.com/zidatalab/covid19dashboar
136       .subscribe(data => {
137         this.dosen_projektion_all_hersteller = data;
138         this.update_kapazitaet();
139       });
140     });
141   });
142 }
143
144 }
```

The bottom of the editor shows the `TERMINAL` panel with the message `1: node` and `Compiled successfully.` The status bar at the bottom indicates the file is on the `master` branch, line 133, column 73, with 2 spaces, UTF-8 encoding, LF line endings, and TypeScript syntax.

# Hintergrund zu Kapazitäten

Lt. aktueller GMK Information

```
